Standard Terms and Conditions of Service Agreement
Revised: May 1, 2001

All provisions of this Datasync Internet Service Agreement apply to all accounts of Datasync Internet Services (hereafter referred to as "Datasync" in this document) and of any reseller of Datasync services.

The benefits of, or rights conferred, by this agreement are non-transferable. Use of Datasync Internet Services accounts are expressly limited to the individual or persons duly authorized by the business whose name appears on the account. This person or persons is/are referred to as "User" in the remainder of this Agreement.

Datasync makes no warranties of any kind, whether expressed or implied, for the services it is providing. Datasync also disclaims any warranty of merchantability or fitness for a particular purpose. Datasync will not be responsible for damages or losses suffered due to service interruptions.

User shall use information obtained through the Internet at User's own risk and User indemnifies and holds harmless Datasync, Datasync customers, Datasync employees and Datasync business relationships from any claims resulting from the use of information obtained through the Internet.

User is responsible for all use of User's account(s) and User indemnifies and holds harmless Datasync, Datasync customers, Datasync employees and Datasync business relationships from any claims resulting from User's use of Datasync services for unlawful purposes or purposes which damages User or another party.

Datasync exercises no control over the content of information transferred over the Internet and User indemnifies and holds harmless Datasync, Datasync users, Datasync employees and Datasync business relationships from any content of information transferred over the Internet.

User is responsible for all use of User's account(s) and User holds harmless Datasync, Datasync users, Datasync employees and Datasync business relationships from any claims resulting from User's inability to use Datasync services.

Datasync reserves the right to change without notice Datasync services not explicitly covered under this agreement, including, but not limited to, access procedures, menu structures, commands, documentation, Datasync hardware, Datasync software and services offered.

Datasync is not responsible for the protection or privacy of any information held by User or transferred through the Internet by User.

User is responsible for the confidentiality of User's password. Datasync will cancel access and change access to User's account(s) immediately upon notification by User that User's password has been compromised.

Datasync bills accounts in calendar month cycles. Charges are due when billed by Datasync and will include the fee for the next cycle (month) and fee due for excess time used the previous cycle. Any invoice not paid within one month of the statement date shall result in a late payment charge of \$2.00 or 2% of the past due amount, whichever is greater. Past due invoices not brought current within ten (10) days of the late charge addition will subject User's account to suspension.

Datasync reserves the right to change prices with 30 days advance notice.

Datasync reserves the right to delete User's personal files upon termination of this agreement.

Datasync reserves the right to suspend or cancel User's access to the service upon any breach of this agreement by User, including, but not limited to, failure to pay for services, allowing the use of User's account by other persons, or performing acts harmful to Datasync, Datasync users, Datasync employees, Datasync business relationships or any other user of the Internet.

Datasync reserves the right to suspend or cancel User's access to service if user engages in Internet abuse of any kind, including, but not limited to, sending bulk e-mail, bulk posting to newsgroups beyond generally accepted norms, e-mail or newsgroup abuse from other Internet servers for the purpose of promoting a service hosted by Datasync, attempts to compromise the security of any computer at Datasync or elsewhere on the Internet, denial of service attacks, or violating the acceptable use policies of other Internet services used by User. In addition, abusive actions by User which result in corrective or cleanup action by Datasync staff will be charged to User's account at the rate of \$50 per man/hour.

Datasync reserves the right to cancel access to service for User's account(s) upon an indication of credit problems including, but not limited to, delinquent payments, rejection of credit card authorization or charges, disputed credit card charges and returned checks.

Datasync reserves the right to cancel access to service for User's account(s) if User's consumption of Datasync's resources exceed the terms of this agreement or reasonable and customary use of the service. A charge of \$2.00 per hour shall be made for simultaneous use of dialup ports above the number allowed by User's subscription. Other guidelines for acceptable use are posted on the Datasync web site.

Datasync reserves the right to modify this agreement upon notifying User. Notification is by posting on the Datasync web site and by notice on billing statements. Use of Datasync services after such notice shall constitute User's acceptance of the modification of this agreement.

Non-Enforcement of this agreement does not constitute consent and Datasync reserves the right to enforce this agreement at its sole discretion.

This agreement and the legal relationship between Datasync and User shall be governed and interpreted in accordance with the laws of the State of Mississippi.

Use of Datasync services constitutes acceptance of this agreement.

This agreement supersedes all previous representations, understandings or agreements and shall prevail notwithstanding any variance with any other agreement between Datasync and User.

Keep this portion for your reference.

Internet Access

ISDN, V.90, 33.6 Kbps, and 28.8 Kbps dialup access is available via our modem pools listed above. We're a toll-free call from many areas of south Mississippi, Alabama, Louisiana, and northern Mississippi, even without Area Calling. ADSL is available in limited areas throughout most of Mississippi, southern Alabama, and Louisiana.

Dialup Accounts

This is our full-featured Internet dialup service. Using dialup software included with your operating system, obtained from the Internet, or purchased off the shelf, you can make a direct connection from your computer to the Internet and use your choice of browsers and many other tools. If you do not already have software, we can provide appropriate software for Windows or Macintosh.

Dialup accounts include one e-mail box and access to our full Usenet newsfeed. Virtually Unlimited accounts also include a shell account on our Linux server with up to 10 megabytes of disk space. The shell space may be used for storing your non-commercial WWW pages at no extra charge. Excess disk usage may be billed at \$1.00/megabyte/month.

The shell account may be accessed with any communications software as opposed to dialup networking, or via telnet from other Internet servers. A wide spectrum of shell tools are available including elm and pine for mail, trn and tin for news, telnet, ftp, irc, lynx, gopher, rz/sz (Zmodem), perl, and gcc. A menu-based front end is provided for those less proficient with the usual command interpreter.

V.90 and single port ISDN (64Kbps) dialup service is available at no extra charge with your Dialup service.

Virtually Unlimited service, for those spending many hours online every day, allows up to 300 hours of modem connect time per month for \$14.95 per month with autobilling to a credit/debit card or bank draft - \$19.95 per month otherwise. Additional hours are billed at \$0.25 per full hour. Includes two (2) additional FREE mailbox only accounts. Dual port ISDN (128Kbps) dialup service is available for \$49.95 per month.

E-Mail Billing Discount: The prices listed above include monthly invoices sent via US Mail. If you'll help us save paper and postage by taking your billing statements via e-mail, we'll take 50 cents off of your monthly rate.

Daylight Savings Plan: For all three levels only one half of your connect time outside of our prime time hours is counted. Prime time is generally in the evening and may be adjusted from time to time. The current prime time boundaries may be found on the Datasync Internet Services web site.

Mail and Access Filtering: E-mail filtering and access filtering are available to assist in controlling or limiting access to/from the Internet. Visit the datasync.com web site for information on these and other services available from Datasync Internet.

A \$15.00 onetime setup charge is applied to all new Dialup accounts. The setup charge is waived with a 3 month prepayment or Bank Draft autobilling for Virtually Unlimited accounts. This setup waiver is not available with the Economy plan.

Simultaneous use of more than one modem by a dialup account is subject to a \$2.00/hour surcharge for overlapping modem connect time. This includes usage of two ISDN ports for 128K service unless the Dual Port option is purchased (see above).

Secondary Accounts

Additional accounts are available at reduced rates to Dialup account holders. Each secondary account includes a distinct login ID, password, and e-mail box. Secondary accounts are invoiced along with the primary. We offer three types of Secondary Accounts.

Mailbox Only: This secondary account provides an additional mailbox with its own login and password combination. Perfect for families or businesses where several individuals are sharing one dialup account but want their own private mailboxes. Each Mailbox Only account adds 2 megabytes to the primary account's disk quota.

The Mailbox Only account is priced at \$2.00/month.

Dialup Secondary: This secondary account provides an additional dialup account with its own login and password combination.. The cost for these accounts is the usual rate minus 10%. Connect times and disk quotas are the same as an equivalent Dialup service. Connect time and disk usage are added to that of the primary account. The Economy level is not available.

The 300 hour secondary dialup is priced at \$17.95/month and includes one (1) additional FREE mailbox only account. The 30 hour secondary dialup is priced at \$12.55/month.

Internet Connectivity

Single-host Dedicated Dialup: Allows for a continuous Internet connection for a single host computer over an analog or ISDN phone line.

We will issue you a static IP address and hostname in the datasync.com domain, to which you may alias a name in your own domain. Secondary name service for your domain is included. We can provide primary name service as well for a nominal charge.

V.90 and ISDN support is available in all areas. ISDN connection equipment decisions should be discussed with Datasync Internet to ensure compatibility.

Pricing varies depending on port speed and other factors. Please call or email for more information.

Network Dedicated Dialup: Connects your local area network to the Internet via an analog or ISDN phone line.

We will issue you IP address space for up to 30 hosts based on your requirements. Secondary name service for your domain is included. We can provide primary name service as well for a nominal charge.

NNTP access for all hosts on your network to our Usenet news server is available for an additional charge.

V.90 and ISDN connections are available in all areas. ISDN connection equipment decisions should be discussed with Datasync Internet to ensure compatibility.

Pricing varies depending on port speed and other factors. Please call or email for more information.

Standard Dedicated DSL: Connects your computer or local area network to the Internet via an ADSL capable phone line.

We will issue you a static IP address and hostname in the datasync.com domain, to which you may alias a name in your own domain. Secondary name service for your domain is included. We can provide primary name service as well for a nominal charge.

Availability is limited to certain areas. Visit our web site for more information or inquire directly for availability in your area. We can provide you with DSL equipment or you may purchase your own. DSL connection equipment decisions should be discussed with Datasync Internet to ensure compatibility.

Rates: \$50.00/month for Residential ADSL

Includes a five (5) hour dialup account, and five (5) additional mailbox only accounts.

\$75.00/month for Business ADSL

Includes a ten (10) hour dialup account, and twenty (20) additional mailbox only accounts.

\$179.00 Single PC installation - External Ethernet Modem†

\$300.00 Network Installation - External Ethernet Router†

† Prices subject to change. From time to time we offer promotions.

Check our website or call for current pricing.

High Speed Dedicated DSL: Connects your computer or local area network to the Internet via a Business Class ADSL capable phone line.

This option provides enhanced speeds and line conditioning for businesses that need guaranteed bandwidth. Service areas are limited.

Pricing varies depending on speed and other factors. Please call or email dsinfo@datasync.com for more information.

Co-Location Hosting Services

If you need high-speed connectivity for your Internet server and are able to manage it remotely, co-locating can save you the expense of a high speed connection. With both Commercial and Non Commercial accounts, and availability at most locations, we can get your Server connected to the world at a price that isn't out of this world.

Rates: \$100.00/month for Non-commercial Resale Hosting (1 IP Address)

\$200.00/month for Commercial Resale Hosting (10 IP Addresses)

\$200 one-time setup fee

Additional IP addresses will be billed at \$10/address/month.

One hour per month maintenance/security available for \$45/month (\$60/hour after first hour).

Please call or email for more information.

World Wide Web Services

Non-commercial Web pages are available at no charge to Dialup account holders (except Economy). Please note that services in this section are add-ons to your dialup service. Without dialup service, add \$5.00/month for a shell account.

Commercial Web Option: Removes the restriction on commercial content. There are no restrictions on content as long as no applicable laws are violated. Adds 10 megabytes of disk space. Includes CGI script privilege if desired. CGI source must be made available to us for security reasons. Includes one custom URL of your choice. Includes a link to your page from our Business Pages directory. Access statistics provided as desired. Custom URL, Business Pages link, and access statistics are also available for your Secondary Accounts, excluding Mailbox Only.

Rates: \$10.00/month, \$5.00 one-time setup

Excess disk usage may be billed at the rate of \$1.00/MB/month.

Virtual Web Server: Same as the Commercial Web Option described above, but allows your Web pages to be accessed via the URL http://www.<your_company>, without the cost or hassle of maintaining your own Web server. You are responsible for domain registration and maintenance charges.

Includes primary and secondary domain name service for your domain.

Rates: \$20.00/month for each Virtual Web Server.

\$30.00 one-time setup per Virtual Web Server.

Secure Web Option: This add-on to Commercial Web or Virtual Web services allows secure, encrypted communication between SSL (Secure Socket Layer)-enabled browsers and our SSL-enabled server. Secure documents and CGIs are accessed by URLs beginning with https:// instead of http://.

Virtual Web sites desiring secure service in their own domain will need to purchase a digital certificate signed by a Certificate Authority (CA) such as Verisign or Thawte in order for your secure documents to be trusted by browsers.

Once you decide on a CA, we will generate an unsigned digital certificate for your domain for you to submit to the CA for signing. The CA will also require proof of your business identity and ownership of your domain. Once completed, the CA returns the signed certificate to you, at which time we can activate your Secure Web Service.

A digital certificate is valid for a fixed period of time, usually one year. The CA will charge fees for setup and renewal or your certificate, for which you are responsible.

Rates: \$25.00 one-time setup per site for SSL setup.
\$25.00 additional setup for us to handle submission to the CA.

FTP Services

Please note that services in this section are add-ons to your dialup service (Basic 30 or above). Without dialup service, add \$5.00/month for a Telnet-In account.

Anonymous FTP Service: Provides a directory for your use on our Anonymous FTP server, and adds 10 Megabytes of disk space. Content unrestricted except for violations of applicable laws, including copyrights. Your URL will be ftp://ftp.datasync.com/pub/your_login.

Rates: \$10.00/month, \$5.00 one-time setup.
Excess disk usage may be billed at the rate of \$1.00/MB/month.

Virtual FTP Server: Provides Anonymous FTP access to your files via the URL ftp://ftp.<your-domain>. You must have your domain registered with InterNIC. If not paired with Virtual Web service, adds 10 Megabytes of disk space to your account.

Rates: Free with Virtual Web Service for the same domain.
\$10.00/month without corresponding Virtual Web service.
\$30.00 one time setup (\$25.00 with Virtual Web for same domain)

E-mail and News Service

One e-mail box is included with each Dialup or Shell account and with each Secondary account.

E-mail Auto-Responders: For automatic return of a text document to anyone sending mail to the auto-responder. Address is of your choice, in the form <responder-name>@datasync.com. Usage statistics and destination addresses provided as requested.

Rates: \$5.00/month, \$10.00 one-time setup.

Mail Reflectors: For setting up mailing lists through which mail to many Internet addresses may be sent by mailing to the reflector address. Reflectors may be moderated (administrator approves submissions before sending to list) or unmoderated (subscribers may submit directly to the list). Subscriptions may be automatic or controlled by the list owner. Adding of addresses to a mailing list without the expressed consent of the addressee is strictly prohibited.

Rates: Starting at \$10.00/month and \$30.00 one-time setup.
Rates may be higher for high traffic lists. Contact us for a quote.

Virtual Mail Server: Allows you to receive mail addressed to <your-login>@<your-domain>. Includes primary and secondary name service for your domain (Mail Exchange record only). Your primary e-mail box and those of any secondary accounts (see Secondary Accounts above) may be mapped to a single mailbox in your domain.

Rates: No monthly charge with Virtual Web or FTP service for same domain
\$10.00/month without corresponding Virtual Web or FTP service
\$30.00 one-time setup (free with Virtual Web or FTP service for same domain)

SQL Services

MySQL Database Service: Provides access to a private database on our MySQL relational database server, and adds 10 megabytes of disk space.

Rates: \$5.00/month, \$25.00 onetime setup.
Excess disk usage may be billed at the rate of \$1.00/megabyte/month.

Other Services

Services not listed here, Internet consulting, custom software development, et cetera: give us a call with your ideas and we'll be glad to discuss them and come up with a quote, or refer you to third parties in our area with the requisite expertise.

E-mail: sales@datasync.com

SLIP/PPP and Application Configuration Values

Your IP Address: Obtained from server at connect time.
For Winsock, enter 0.0.0.0. For MacTCP, check "Server".
Host Name: Overridden at connect time. Put whatever you want for the host name.
Domain Name: datasync.com
Name Server (DNS): Leave blank.
Dialup Phone Number: See previous section for dialup numbers.
To disable Call Waiting, put *70, in front of the number.
Authentication:
 For login scripting, use two expect/send pairs:
 (1) wait for login:, send your login ID.
 (2) wait for word:, send your password.
In most cases scripted logins should not be necessary.
Compression: For PPP, select Van Jacobsen (VJ) compression.
Your e-mail address: Your login ID followed by @datasync.com
POP Mail Server: pop.datasync.com
SMTP Mail Gateway: smtp.datasync.com
NNTP News server: news.datasync.com
Our Web site address: http://www.datasync.com

Billing Policy and Other Information

New service is established upon voice validation of account information or receipt of setup and first month's service charge. Datasync Internet bills accounts in calendar month cycles. Charges are due by the payment due date in your invoice and will include the service charge for the next cycle (month) plus any charges due for excess time or disk usage during the previous cycle. Accounts with a past due balance older than 40 days will be disconnected for nonpayment and will incur a \$5.00 reconnection fee.

PAST INVOICE REQUEST: Datasync Internet does not retain copies of past invoices. All balance and usage history is retained in our account databases however and is available for no charge via the Account Control Center or by sending a request to billing@datasync.com. If you need a past invoice/statement there is a charge of \$2.50 for each invoice/statement that is requested. Requested invoices/statements will be generated and may be sent via e-mail or U.S.Postal and the primary account will be billed at \$2.50 per invoice/statement generated.

Incentives and Discounts

If you refer someone to Datasync Internet and they sign up, you get a \$5.00 credit toward your next bill when their initial payment is received. Prepayment discounts available. Call or e-mail for more information.

Datasync Internet Services Extended Services Registration Form

This page need ONLY be returned if you are ordering services beyond Internet Access. Please attach to the Basic Account Registration Form or enter userID of primary account here: _____

Virtual Web, FTP, or Mail services require a domain name registered with a Registrar. If you do not have one, you must first register your domain with an InterNIC accredited Registrar before filling out this form. <http://www.internic.net/regist.html>

Your Internet registered domain name: _____

Domain and Web Services: (Check all that apply.)

- Commercial Web option (no domain) \$10/month, \$5 setup. **Requested URL** : www.datasync.com/ _____
- Virtual Web Server: \$20/month, (www.yourcompany.com) (includes virtual mail) *
- Virtual Mail Server Only: \$10/month, (yourname@yourcompany.com), *With Virtual Web: no setup/monthly charges.**
- Virtual FTP Server : \$10/month, (includes Anonymous FTP) (<ftp.yourcompany.com>)* †
- Secure Web Option: \$25 setup
- Reserve Domain: No monthly fee*

* Domain registration required for this option, \$30 setup fee applies to all Domain Hosting packages.

† Free With Virtual Web Server - \$25 setup fee.

If selecting Virtual Web Server option above, please choose type of web server below.

- UNIX Server UNIX Server w/Frontpage Windows NT Server w/Frontpage (\$20 additional setup fee)
